

Browsing Bins and Display for Children's Books

To engage and increase circulation for **picture books**, **board books**, and **early readers**.

Our most requested item is picture book browsing bins.

Browsing bins can be configured in a variety of ways and sizes. Bins can be **combined with face-out display shelves** to help **highlight books**. Our library customers regularly report an **increase in circulation of picture books** with the switch to browsing bins.

Signage, locking **casters**, and **end panels** are all options.

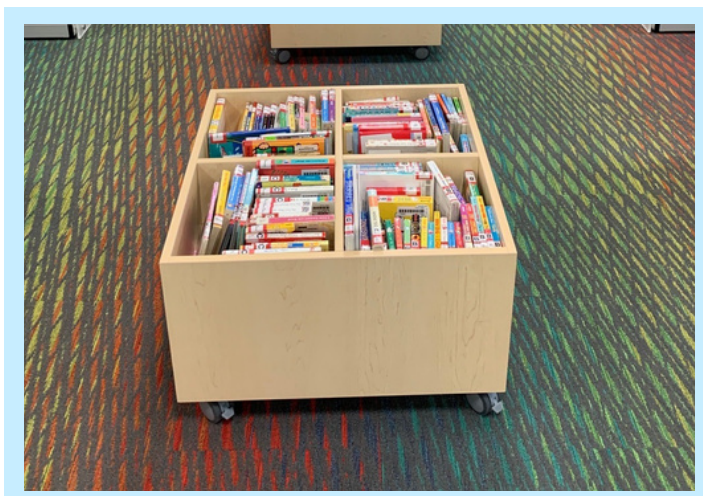

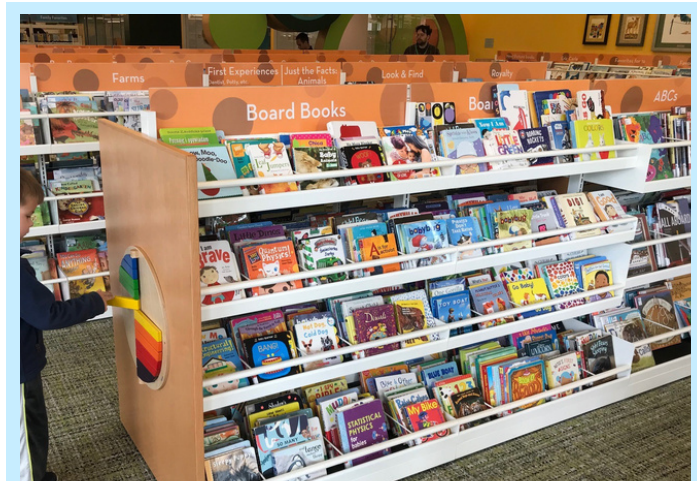

An engaging way to display board books

Board books help instill basic ideas of language to the youngest library patrons. **Displaying board books** face-out in bins allows for **easy browsing for parent and child**.

A variety of sizes and styles are options.

Flip early readers to forward-facing.

Many of our libraries choose to house their early reader collections in browsing bins.

Signage helps organize and draw attention to this important collection.
